Recommended Dynamic Rewards

DIRECT REFERRAL

10%

of participation reward

INDIRECT REFERRAL

5%

of participation reward

COMBINATION REWARD

For each direct or indirect recommendation

×3

8%

persons earn an

&

4%

reward, respectively.

Community Contribution Rewards

Thank you for your contributions to building the community.

Gen.	FORWARD SPREAD	REVERSE PAYBACK	Gen.
1	100%	10%	11
2	90%	20%	12
3	80%	30%	13
4	70%	40%	14
5	60%	50%	15
6	50%	60%	16
7	40%	70%	17
8	30%	80%	18
9	20%	90%	19
10	10%	100%	20

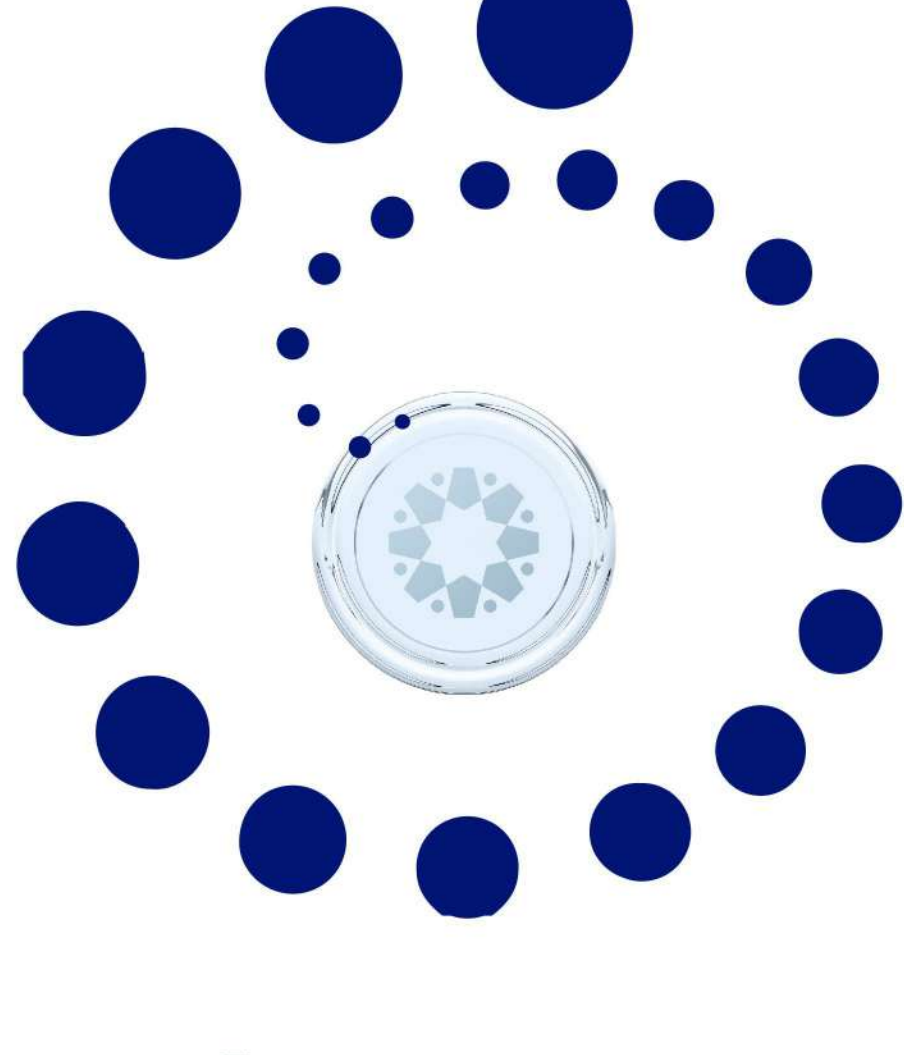

The first Dual Public Ranking ever.

Sun and Planetary Public Rankings.

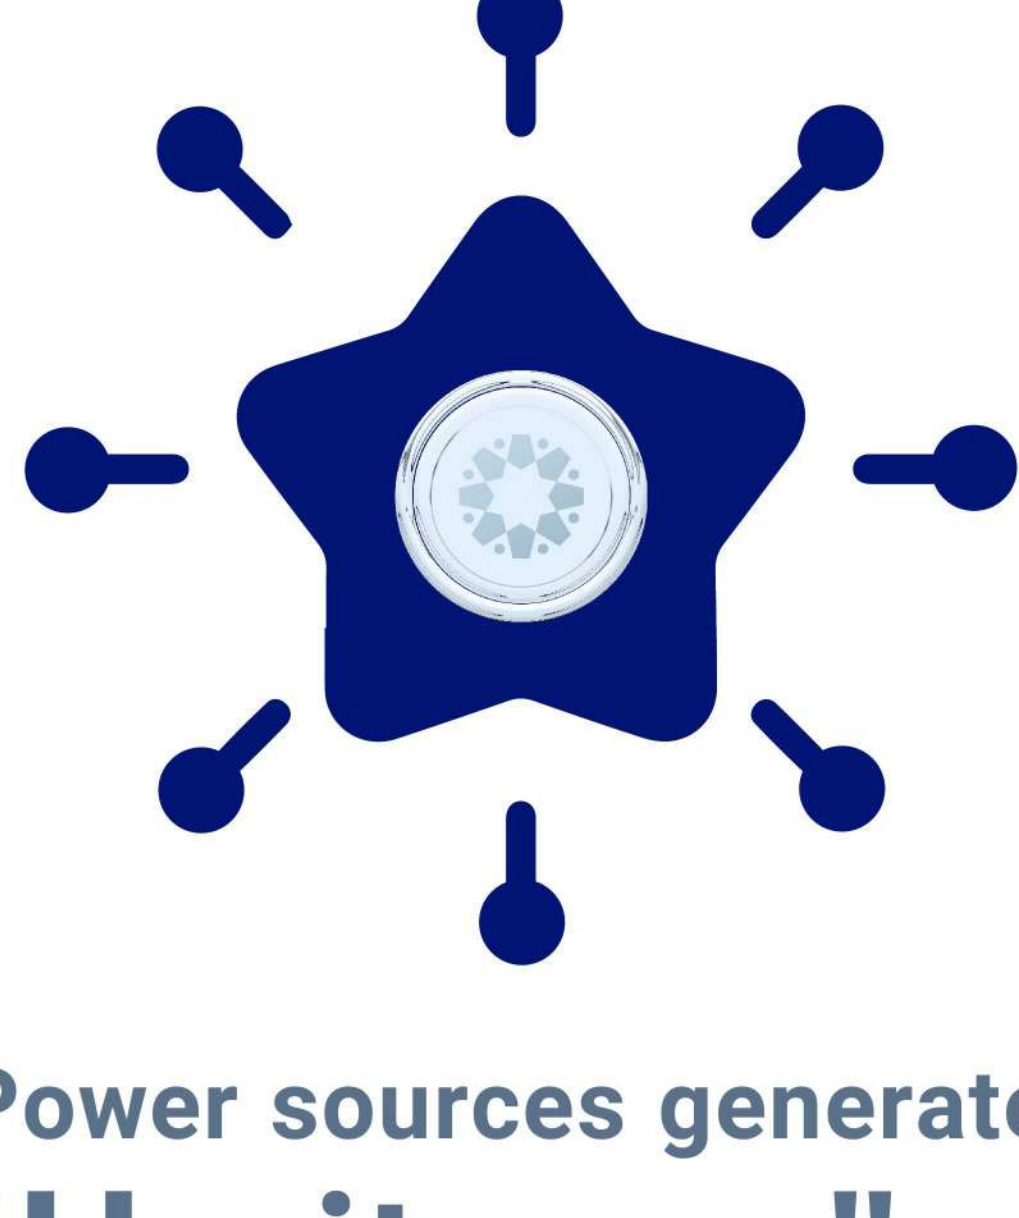

1 Sun Public Ranking will continuously reward

"Transmission"

2 "Linkage"

prizes will cycle eternally in the Planetary Public Ranking.

3 Power sources generate

"Heritage"

rewards continually.

Transmission & Heritage

1

【Transmission】

is the most fair, transparent, and win-win method, undergoing "screening."

- All dynamic rewards will have an additional x1% "Transmission" to the first 24 and last 24 participating accounts, totaling 48%.
- The power source qualifies as transmission.
- The first 24 and last 24 accounts change as the sun gear revolves.
- To demonstrate fairness and transparency, consider the sun gear, which changes to cover gaps. The "screening" of "Transmission" will eliminate zero contributions and distribute earnings profitably.

2

【Heritage】

Creates An Unlimited Loop

- Qualified power sources create Heritage.
- After Dual Public Ranking, Heritage will generate new accounts.
- Heritage incentives from power sources can be stored in Heritage accounts.
- Referral dynamic rewards will include Heritage. An account that creates Heritage is a direct referral, while the one above it is indirect.

3

【Linkage】

One-time Rewards, Generated Continuously

- Generated in the Planetary Public Ranking.
- The downline automatically creates a full column, triggering 【Transmission】 with a one-time payout.

Power Source

1 The power source can be understood as a warehouse where additional power (rewards) is stored.

2 Transmission and Heritage of power source benefits begin after daily settlements.

TBC's rationale for adding value

1. Continuous growth through burning, supply and demand.
2. TBC begins as an application token.
3. TBC determines all withdrawal fees.
4. All TBC will be burned until 10% remains.
5. TBC holders can sell them in the public pool at the current price.

*Users can withdraw without concern because TBC will be gradually put into the public pool in accordance to network assets.

TOURBILLON Highlights

i New fundraising platform.

ii AI GAMEFI innovates.

iii Sun public ranking's
【Transmission】 ecosystem.

iv Planetary public ranking's
【Linkage】 ecosystem.

v Power source's 【Heritage】
ecosystem.

vi Public rankings emphasize
speed, justice, and transparency.

vii Unlimited wealth forward and
reverse.

viii TBC starts as an application token,
eliminating "meme coins."

ix TBC 2.0 GameFi mining to build
a hundredfold coin.

x TBC 2.0 NFT cards boost payouts
and participation.
